

Communication & Language

Children will be looking at a broad variety of modern foreign languages, learning greetings and basic communication skills.

Mathematics

- Number - number and place value, addition and subtraction, multiplication and division, negative numbers, fractions, decimals, percentages and ratio;
- Solving multi-step problems;
- Measurement;
- Geometry - properties of shape, position and direction.

Languages

Over the summer term children will continue to learn some basics, including greetings, family members, food and drink, pets and body parts, from various modern foreign languages.

Physical Development

P.E: Children will be doing sailing and swimming during the summer term.

Myths,

Magic and Mystery

Understanding the World

History: Children will be learning about **Ancient Greece** and will be going into detail about **democracy, Gods and Goddesses, The Trojan War and The Ancient Olympics**

Science

Children will be learning about **Earth and Space**. They will be learning about the planets in our solar system, learning about how planets orbit the Sun, how the Moon orbits the Earth and about night and day.

English

We will be looking at a range of texts over the summer term, including non-chronological reports, biographies and autobiographies.

We continue to scaffold our learning using VCOP and our Magpie books.

ICT: Children will be using the internet to gather information for English and Topic lessons. They will also do computer programming and E-safety lessons with specialised tuition from Mr. Beadle.

R.E: This term in R.E we will focus on inspirational people in Islam and Christianity.
